

Introduction to Technical and Business Writing

BY: ADNAN AHMED

What is Technical and Business Writing?

Technical and Business Writing refers to professional, goal-oriented communication used to convey technical, scientific, and business-related information clearly and effectively to a specific audience.

T&BW is:

- ❖ Objective
- ❖ Structured
- ❖ Audience-centered
- ❖ Purpose-driven

What is Technical and Business Writing?

It is used to inform, explain, persuade, and support decision-making in professional contexts.

Technical and Business Writing is the practice of communicating complex information in terms of technical, scientific, or organizational, in a clear, accurate, ethical, and usable form for professional audiences.

Why is This Course Important for AI Students?

- ❖ Build models
- ❖ Write code
- ❖ Analyze data
- ❖ Explain AI systems to non-technical people
- ❖ Justify AI projects financially and ethically
- ❖ Document systems for users, clients, and organizations
- ❖ Write reports for management, funding bodies, and regulators

Technical Writing vs Business Writing

	Focus on:	Examples:	Audience:
Technical Writing	✓ How a system works ✓ Technical accuracy ✓ Methods, data, and results	✓ Technical reports ✓ Feasibility studies ✓ Research papers ✓ System documentation ✓ User manuals	✓ Engineers ✓ Developers ✓ Technical experts ✓ End Users

Technical Writing vs Business Writing

	Focus on:	Examples:	Audience:
Business Writing	✓ Why something matters ✓ Decision-making ✓ Costs, benefits, risks	✓ Proposals ✓ Executive summaries ✓ Business reports ✓ Emails to management ✓ Policy documents	✓ Managers ✓ Investors ✓ Clients ✓ Decision-makers

AI/MMG Project Proposal

Situation:

An AI/MMG team develops a facial recognition system for a university.

AI/MMG Project Proposal

Technical Writing Needed:

- ✓ How the system works
- ✓ Algorithms used
- ✓ Accuracy rates
- ✓ Hardware/software requirements

Business Writing Needed:

- ✓ Cost of implementation
- ✓ Ethical considerations
- ✓ Benefits for security
- ✓ Risks and limitations

Feasibility Report

Situation:

An organization wants to automate customer support using AI chatbots.

Feasibility Report

A feasibility report answers:

Is the technology available? (Technical feasibility)

Is it affordable? (Financial feasibility)

Can it be implemented in this organization? (Operational feasibility)

Workplace Communication

- ✓ Emails to supervisors
- ✓ Progress reports for projects
- ✓ Documentation for clients
- ✓ Instructions for users

A poorly written email can:

- ✓ Delay approval
- ✓ Cause misunderstanding
- ✓ Damage professional reputation
