

Assignment 2:

Query Formalization and Inclusion/Exclusion Criteria + Review/Survey Paper Extraction & Presentation

Objective:

To train students to define search strategies and criteria for systematic Literature review. Based on Lecture slides/discussion, you are supposed to perform following tasks,

Step 1: Understanding the Problem Domain

Step 2: Keyword Extraction

Step 3: Formal Search Query

Step 4: Inclusion and Exclusion Criteria

Step 5: Search Execution (IEEE Xplore and Google Scholar)

Step 6: Extract at least three latest review/survey papers on above criteria and present all of above steps in ppt as well.
